## EXPERIENCE

### TO-GO Mobility — *Frontend Developer*

- Developed frontend for TO-GO Mobility, an Uber-like service with enhanced security measures.
- Translated over 15 Figma screens into functional code, ensuring fidelity to design specifications.
- Integrated backend data seamlessly into the design to provide dynamic user experiences.
- Extensively optimized and refined the driver's flow for efficiency and usability.
- Implemented robust authentication flows for both drivers and passengers, connecting them securely to the backend systems.

### Medix AI — *Backend Developer*

- Contributed to backend development for an AI-powered symptom and diagnosis guidance web app in a team of Eight.
- Implemented authentication using JWT and integrated Passport Google OAuth 2 library for secure user access.
- Contributed to the development of backend features, ensuring seamless communication between the frontend and AI components.
- Documented all API endpoints, encompassing both the authentication and AI endpoint.

## PROJECTS

### Terminal-Chat-APP

- Created a CLI chat application for real-time communication, chat room creation, and public chat room joining.
- Added authentication, token storage, message sending, and chat room membership management features.
- Published UI package on NPM for easy installation, deployed server on Render.com,
- Created a react landing page for the application and have gained 330+ downloads since its launch.

### Gutenberg-fiction-books

- Enabled efficient access to 20,000+ fiction books from Project Gutenberg
- Designed and implemented API architecture, including database schema, routing, and middleware configuration.
- Overcame performance challenges by optimizing database queries, implementing pagination, and deployed on Cyclic.sh for HTTP access to API endpoints.

## Summary

A dedicated Full-stack Developer with experience in building and maintaining web applications. Strong understanding of front-end and back-end technologies, with a passion for learning and implementing new tools and frameworks. Proven ability to collaborate with cross-functional teams to deliver high-quality and efficient solutions. Seeking to leverage my skills and knowledge to contribute to a fast-growing and innovative development environment.

## Education

### University of Helsinki

Fullstack Development Certificate

### Federal University of Technology, Minna

September 2021 - June 2026  
B.Eng Computer Engineering

## Skills

- React
- Redux
- Nodejs
- Express
- MongoDB
- JavaScript,
- Typescript
- Python & C
- Tailwind
- Testing
